Creation of Air Navigation Technical Regulation Volume II Part 9 Facilitation

To ensure the Bahrain Civil Aviation Affairs has the most up to date regulatory system and continues to meet its regulatory responsibilities to the highest standard, the above named Regulation has been created in order to reflect ICAO and international standards, in line with the Kingdom's requirements.

The introduction of this ANTR will:

1. Translate the current version of Annex 9 of the Chicago Convention into national Regulations;
2. Facilitate the creation of cross-authority committees and programmes.

The attached Notice of Proposed Amendments (NPA) continues the process of formal public consultation on this proposed introduction.

Your review of the NPA 01/17 and your timely response by 9th April 2017 would be most appreciated.

Assistant Undersecretary Safety and Aviation Security

Recipients of new Aeronautical Circulars are asked to ensure that these are copied to their 'in house' or contracted organisations, to relevant outside contractors, and to all members of their staff who could have an interest in the information or who need to take appropriate action in response to this Communication.
